Re: Effective Monitoring Committee- Collaboration on Proposed Projects

Dear Mr. Dias,

Big Creek Lumber Company would like to take this opportunity to become a potential collaborator in one or more of the proposed projects to the Effective Monitoring Committee found in Appendix E of the EMC Strategic Plan. Big Creek Lumber Company has been collecting in-stream and air temperature data in San Mateo County and Santa Cruz County for almost 20 years, with over 330 data sets. The next page has a simple spreadsheet that shows what creeks were monitored, the year, and how many loggers were placed in each creek. Big Creek has simplified some of the raw data by making temperature graphs and comparison charts.

Please keep Big Creek in mind when looking for collaborators for the following proposed projects:

- EMC-2014-006 Post-harvest effectiveness of WLPZ measures to maintain or enhance coho in forested watersheds.
- EMC-2014-010 Landscape-level long-term water temperature monitoring of forested watershed.

If you have any interest in any of our data sets, or would like more information, please contact me directly. Thank you for this opportunity to be a potential collaborator for the Effective Monitoring Committee.

Sincerely,

Julie Dufresne, RPF #2993  
Big Creek Lumber Company  
3465 Highway 1  
Santa Cruz, CA 95017
