INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

The California State Board of Forestry and Fire Protection is promulgating a regulation to clarify fire hazard reduction treatment standards and eliminate redundant language for this section. Changes are generally non-substantial revisions. The Forest Fire Prevention Exemption exempts persons who conduct timber operations from preparing and submitting Timber Harvest Plans, completion reports, and stocking reports when harvesting trees and other commercial forest products for the purpose of reducing the rate of fire spread, fire duration and intensity, fuel ignitability, and ignition of tree crowns.

SPECIFIC PURPOSE OF THE REGULATION

The primary purpose of the existing regulation is to exempts persons who conduct timber operations from preparing and submitting Timber Harvest Plans when harvesting trees and other commercial forest products for the purpose of reducing the rate of fire spread, fire duration and intensity, fuel ignitability, and ignition of tree crowns. The proposed amendments deletes redundant language related to protection of wildlife habitat and for requirements for retaining dominant and codominant trees following hazard reduction treatments; moves language related to meeting requirements of PRC 4291 to a separate subsection for clarity; and clarifies prescriptive fuel removal spacing standards.

DISCLOSURES REGARDING THE PROPOSED ACTION

The Board has determined the proposed action will have the following effects:

- Mandate on local agencies and school districts: None are known.
- Costs or savings to any State agency: None are known.
- Cost to any local agency or school district which must be reimbursed in accordance with the applicable Government Code (GC) sections commencing with GC 17500: None are known.
- Other non-discretionary cost or savings imposed upon local agencies: None are known.
- Cost or savings in federal funding to the State: None are known.
- Significant, statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states: None are known.
- Potential cost impact on private persons or directly affected businesses: The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.
- Effect on small business: None. The Board has determined that the proposed amendments will not affect small business. Small businesses should benefit from the reduction in regulatory requirements resulting from filing of an exemption instead of a Timber Harvest Plan for conducting operations under this regulation.
- Significant effect on housing costs: None are known.
- Adoption of these regulations will not create or eliminate jobs within California.
- Adoption of these regulations will not: (1) create new businesses or eliminate existing businesses within California; or (2) affect the expansion of businesses currently doing business within California.

The proposed Rules do not conflict with, or duplicate Federal regulations.

BUSINESS REPORTING REQUIREMENT

The regulation does not require a report, which shall apply to businesses.

CONSIDERATION OF ALTERNATIVES

In accordance with Government Code 11346.5(a) (13), the Board must determine that no reasonable alternative it considers or that has otherwise been identified and brought to the attention of the Board would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action.
